Quality products for animal oral health

Water additives for dogs & cats

- Chlorhexidine Gluconate: Anti-microbial
- Zinc Gluconate: Breath freshener
- Emilgase: Enzyme for plaque prevention
- Xylitol: Sweetner and plaque prevention

Ingredients:

- 2 capfuls a day: It's just that simple
- Just add 2 capfuls a day to 1 L of drinking water.

Effect of Oral Antimicrobial Agent

Emilgase and chlorhexidine gluconate reduce plaque formation, gingivitis and or other mouth, tongue and gum disease. Zinc gluconate combats volatile sulfur compounds to improve quality of breath and gum tissue.

Toothpaste for dogs & cats

- Low-abrasive polisher
- Mechanical effects of brushing
- Palatable mint and chicken flavours
- Available in 50 mL tubes

More than just brushing

Chlorhexidine digluconate prevents the growth of micro-organisms associated with plaque formation, gingivitis and or other mouth, tongue and gum disease. Cysteine and zinc gluconate combat volatile sulfur compounds to improve quality of breath and gum tissue. Non calcium based abrasive for safety.

Oral gel for dogs & cats

- Palatable vanilla flavour
- Ready-to-use
- No refrigeration required
- Alcohol free
- Recommended for patients who will not tolerate brushing

Prolonged activity

Essential surface adherents and thickeners enable the gel to remain on the oral surfaces prolonging the activity of the ingredients. Chlorhexidine digluconate prevents the growth of micro-organisms associated with plaque formation, gingivitis and or other mouth, tongue and gum disease. Zinc gluconate combats volatile sulfur compounds to improve quality of breath and gum tissue.

PerioStix™ for dogs

- Easy to administer, hard to forget
- Highly palatable

PerioStix are formulated for use between routine veterinary dental cleanings to help maintain clean teeth, freshen breath, control plaque formation and support gum health.

Dual action delivery system

Outer layer consists of Yucca Schidigera Extract, Pumice, Spirulina, Parsley and Cinnamon to promote plaque control and remove bacteria. Inner layer consists of CoQ10, Zinc, Natural Zeolites, Probiotics, Taurine and Cranberry to support gum tissue integrity and freshen breath.

NUPK5

✓ Reduce bad breath ✓ Reduce plaque and calculus build-up ✓ Improve client compliance
