### Antibacterial Skin Cleanser

#### 0.6% Chloroxylenol

#### Effective Antibacterial Skin Cleanser

Imrex Phenrex® is a safe, broad spectrum skin cleanser with rapid antibacterial activity. It is effective against Gram - negative and Gram - positive bacteria, yeast and fungi.

**Phenrex®** is particularly effective against microorganisms found on the skin.

**Phenrex®** was specifically formulated by veterinarians with a broad spectrum antibacterial agent.

**Phenrex®** contains the active ingredient 0.6% chloroxylenol, humectant Glycerine to seal in moisture and protect skin from cracking and Polyquaternium-7 to condition the skin from repeated washings daily.

**Phenrex®** is formulated with a pleasant fragrance, and mild cleansers and moisturizers. Hands are left clean and hydrated, even after repeated washings throughout the day.
